

Reference Letter

Our twin daughters were under Robin's care for four years starting at 10 months of age until they had to move on to kindergarten. Being our first children we were very nervous about leaving them in anyone's care outside of our family. When we first went to meet with Robin at her house those fears quickly disappeared. We loved the addition that she had made to her home that was specifically designed to care for the kids and the girls were at ease with her immediately. After the girls had been with Robin for only a few weeks they had become so comfortable that they were even referring to her as mom, which may seem intrusive to some but showed us how much she cared for them. During their time with her we moved to a different city, but drove out of our way to keep them with Robin because she had become part of the family and we couldn't bear separating the girls from her. Robin not only was able to provide a safe and loving environment for our children, but she also guided us through many milestones such as dropping down to one nap, transitioning to sippy cups and potty training all of which was very helpful for us first time parents. Robin also found the time to work with our kids on reading, writing, sight words and even sign language. Her network of local child care providers as well as her dedication to the families she cared for gave us peace of mind knowing we always had a place to send our kids. Sick days were nearly nonexistent.

We highly recommend Robin as a child care professional who treats her vocation more as a loving way of life than a career.

Robin will always hold a special place in our hearts and we feel so fortunate to have found her. Please feel free to contact us for more information or with any questions.
