

Parents:

As a working parent, it is hard to find a place where you feel your child is comfortable and in a secure environment. I quickly saw that Robin's Nest Childcare is exactly that and a place we could call our son's home away from home. I felt extremely lucky to have found Robin's! Our son Elijah was with Robin for 3 years before he left for Preschool.

Robin provides daycare in a warm, home environment. She excels at meeting infants' and toddlers' developmental needs. Due to the attention Robin devoted to our son, she was instrumental in his achievement of developmental milestones. She helped him develop an increased vocabulary and a love of learning to identify objects by color and for books. Her daycare is full of fun, learning, warmth, joy, delicious healthy food, and happy children creating lasting friendships. The day is full of learning and play in amazing indoor and outdoor play areas. Furthermore, her daycare reinforced respect and care for others.

My son still talks daily about his many memories of playing and learning at Robin's Nest Childcare. Robin and her whole family will always be in our hearts for the love she showed our son and the love she showed our family, especially in a time of loss of a family member during this past year. As well, the other families of children attending and the friendships my son developed will forever be in our hearts.

Robin provided our son with the life, learning and discipline skills necessary to thrive in a pre-school and the rest of his life. We highly recommend Robin's Nest daycare.

Sincerely,

Joyce Spencer
